## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claim 149 is allowed.

Claim 142 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Claim Rejections - 35 USC § 103***

Claims 84-87,143-148 are rejected under 35 U.S.C. 103(a) as being unpatentable over Harris et al. This patent discloses in column 7 the process of passing a sterilized suspension through a sterilized microfluidizer. The particular apparatus claimed would have been a design choice only as the claims are drawn to a method, not an apparatus i.e. the claimed method steps are either shown in the patent or obvious modifications thereof.

### ***Response to Arguments***

Applicant's arguments filed 1/29/09 concerning the above rejected claims have been fully considered but they are not persuasive. Adding apparatus limitations to method claims does not result in patentable subject matter if the positively claimed method steps are shown in the prior art. For example, in claim 84 the addition of a needle valve is an apparatus limitation only; the material still flows from the interaction chamber to the intensifier as shown in the prior art. The arguments concerning the claim 86 rejection are not persuasive because it is inherent in the patent process that some type of monitoring is done to produce the desired product, or else the

patented process would not produce the desired result. The end size claimed is based on the final desired product size, and clearly this is within the scope of one skilled in the art.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
